Animal Information

If your animals are not already registered, we need a little more information. However, as long as the sire and dam are registered, you only have to give us their names and registrations numbers – we will get the rest of the pedigree information from CLRC. In order to avoid substitutions for junior lambs, if the complete information is not known, please fill in only the Breed, Class, Sex and if possible the sire. We will obtain the rest of the entry information from you at the Classic. There is space here for six animals – if you need more, please photocopy this form
